

LED head lamp, rechargeable

3 W COB LED

JM-No. 147 00 33

- (EN) Battery head torch
- (PL) Latarka czołowa akumulatorowa
- (ES) Linterna de cabeza con acumulador
- (IT) Lampada frontale a batteria
- (DK) Batterihovedlampe

Technical data:

Lithium battery 1,500 mAh/3.7 Volt, luminous duration: 2/6 hours, charging time: 2.5 hours, luminosity: 100/300 lm, sensor distance: 0-13 cm +/-3 cm

Scope of delivery: head lamp, charger 230 volt, USB cable.

Safety instructions:

- Before use read the instruction manual carefully.
- Do not use the lamp or the power supply when it is damaged or changed – danger to life! Please contact a qualified electrician or the service address.
- Do not look directly into the light.
- Never open the device.
- Do not use the work lamp in an explosive environment – danger to life!
- For charging the battery only use the provided power supply and cable.
- Do not kink the cable.
- Do not operate in the direct sun light or extreme temperature conditions.

Charging process:

Before taking the head lamp into service for the first time charge it for 4-5 hours. Full Power only available after repeated loading. For charging, connect the enclosed 230V power supply to the battery. To do so remove the rubber cap on the back of the lamp and connect the device via micro-USB to the desired socket. During charging the indicator LED shows red. It turns to green if charging is completed.

Operation:

Press the main switch a first time to switch the main light on to ECO mode. Another press on the main switch activates the full power mode. To switch the lamp off press the Main switch a third time. Press the sensor switch to switch normal mode off and sensor mode on. Now wave your hand in front of the light to switch it on and off. Press the sensor switch a second time to switch sensor mode off and turn to normal mode.

Do not throw electrical devices, batteries and accumulators in the household garbage.

Old electrical devices, batteries and accumulators must be collected separately and recycled in an environmentally sound way.
