Mounting instruction:

- Mount the straps with M 10 x 25 screws, Lock washers and Washers on the Protection Guard.
- Mount the Protection Guard with the further listed mounting parts on the motorcycle.

Care and servicing:

To reach a long live span of our chromium-plated articles they should be cleaned regulary and be treated with customary chrome care means.

With powder coated articles a regular cleaning is important. Damages (e.g. by rockfall) can be mended with colour.

By both versions we recommend about the winter the spraying or rubbing with corrosion protection oil or silicone.

All fixing bolts must be checked at regular intervals (max. 6 months).

We wish you a lot of joy and accident-free journey with our motorcycle accessories.
