***So finden Sie Ihren Farbton im Farbtonverzeichnis:
So you can find your color tone in the listing:***

Automarke Brand	+	Farbton Color tone	=	Such-Nummer ID-number
Beispiel / Example: Opel		256 schwarz met.		70-0100 oder / or (*) 70-0410

- Die Fahrzeug-Fabrikate sind alphabetisch sortiert.
- Die Farbtöne innerhalb der Fabrikate sind numerisch gelistet.
- Jedem Farbton ist eine SUCH-NUMMER zugeordnet.
- Diese Such-Nr. identifiziert IHREN Farbton und ist auf Dosen-Kappen, Etiketten und Ständerschienen aufgeführt.

(*) Achtung, wichtiger Hinweis:

Wie kann es sein, dass beim Farbcode eines Automobilherstellers verschiedene Suchnummern zu finden sind?

Vorlagen der Autohersteller sind nach bestem Wissen und Gewissen nachgestellt und klassifiziert worden. Unabhängig davon können z. B.

- a) Farbtoleranzen bei Produktionen der Autos in verschiedenen Produktionsstandorten
 - b) verschiedene Baujahre und Verwitterung bei älteren Lacken
- unterschiedliche Schattierungen der eigentlich identischen Farben verursachen. Bitte beachten Sie diese werksseitigen Farbtonabweichungen, die wir leider in unserem Sortiment nicht beeinflussen können.

- The car brands are assorted in alphabetic order.
- The colors within the car brand are listed in numerical order.
- Each color tone is assigned to an ID-number.
- This ID-number identifies YOUR color tone and is shown on the can`s cap, label and sales racks.

(*) Attention, important remark:

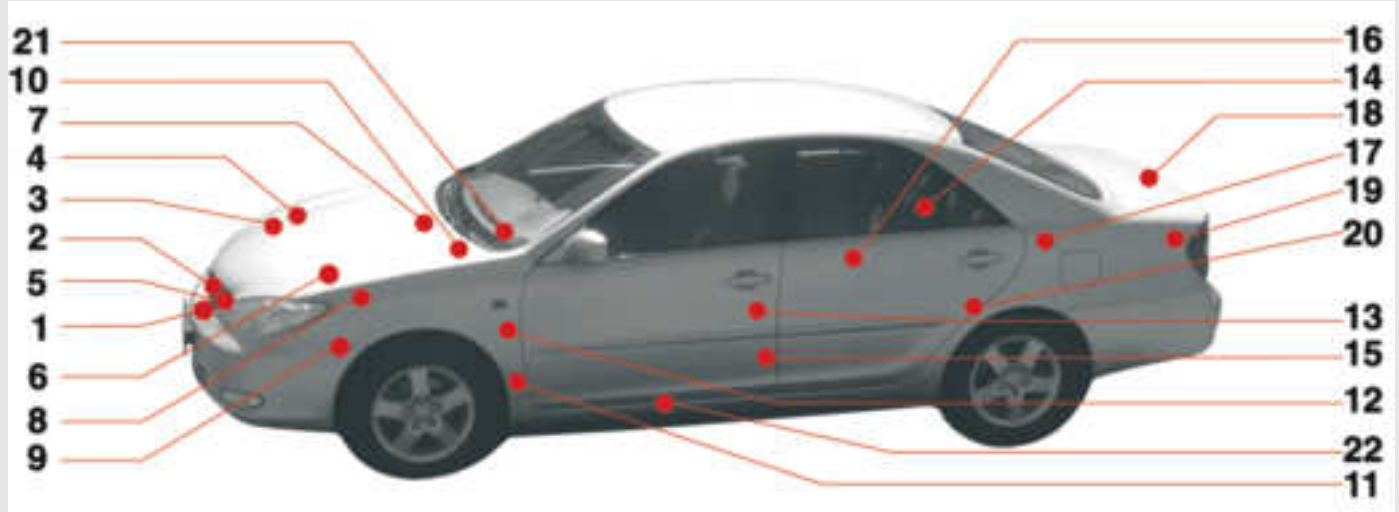

How is it possible, that color codes of one car manufacturer apply to different ID-numbers?

The color samples of the automobile manufacturers have been matched and classified according to our best knowledge. Independent from this, e.g.

- a) color tolerances if cars have been produced in different production sites
 - b) different construction years and weathering of old lacquers
- may cause different shades of originally identical colours. Please consider these possible colour deviations, which we unfortunately cannot influence in our assortment.
